A Snapshot

A Commerce graduate and a Management Post Graduate from Maharishi University, Rohtak, Haryana and a Research Scholar of Haryana School of Business, Guru Jambheshwar University of Science & Technology, Hisar, Haryana. Having a great passion of teaching that is why left the corporate environment after serving the Corporates for five years and started to build my career in the area of my interest and passion. After getting married (in 2012), due to the responsibility of young kids [a daughter and a son] when I was not able to go outside for teaching I used to teach students at my place in my own academy Ekom Classes. I was only MBA before marriage but have achieved all the teaching related qualifications after marriage. Now I am all set to give my services again in a fully professional environment. I hope my competencies will be considered over my limitations of not able to teach at location (Manipal University, Jaipur) far away from my hometown (Hisar, Haryana).
