DEPARTMENT OF ALLIED HEALTH SCIENCE

CHAIRPERSON OF THE DEPARTMENT: Prof. Om Prakash Sangwan

Department of Allied Health Sciences

The **Department of Allied Health Sciences** is dedicated to shaping the next generation of healthcare professionals with specialized expertise in **Biomedical Engineering and Medical Imaging Technology**. The department offers a comprehensive set of programs that integrate cutting-edge theoretical knowledge with hands-on training. These programs aim to equip students with the essential skills and knowledge required to meet the demands of the rapidly evolving healthcare and medical technology sectors. With a focus on both innovation and patient care, the department plays a pivotal role in developing professionals who contribute significantly to advancing healthcare practices.

1. Programme offered:

Bachelor of Medical Radiology and Imaging Technology (B.MRIT)

Bachelor of Medical Radiology and Imaging Technology (BMRIT) is a professional healthcare course that prepares students to work with advanced medical imaging technologies used for disease diagnosis and treatment planning. The program provides knowledge and practical training in X-ray, Computed Tomography (CT), Magnetic Resonance Imaging (MRI), Ultrasonography (USG), Mammography, Fluoroscopy, Nuclear Medicine, and Interventional Radiology. Medical Imaging has become an essential component of modern healthcare, enabling accurate diagnosis, early disease detection, and effective patient management.

The field of Medical Radiology and Imaging Technology is rapidly advancing with the introduction of Digital Radiography, Artificial Intelligence (AI), PACS, Teleradiology, PET-CT, PET-MRI, and advanced image-guided procedures. These technological developments have significantly improved image quality, diagnostic accuracy, patient safety, and healthcare accessibility, making Medical Imaging one of the fastest-growing sectors in healthcare.

After completing the BMRIT program, graduates have excellent career opportunities in government and private hospitals, diagnostic centers, medical colleges, research institutions, cancer centers, and healthcare industries. They can work as Radiology and Imaging Technologists, CT Technologists, MRI Technologists, Mammography Technologists, Nuclear Medicine Technologists, PACS Administrators, Clinical Instructors, and Research Associates.
